

The Problem

- Flaky tests (pass/fail inconsistently).
- Rediscovering known issues wastes time.
- This is a challenge for the Test Reviewer role when reviewing CI Test reports.

Track Fix Stabilize.

Our Tracking System

- GitHub Project Board (**Test Suite Status**)
- Columns: New, Debugging, Bug, Test Framework Issue, Flaky Test, Fixed, etc..
- Card Title Format: Feature: <Feature Name> | Scenario: <Scenario Title>
- Detailed notes & history per card.
